

REFLECTION SERIES

by Boston Acoustics

Modern elegance. Legendary performance.

Modern elegance. Legendary performance.

In an elegant fusion of technology, performance, and stylish good looks, our new Reflection Series speakers deliver clean, balanced sound worthy of our thirty year heritage. While performance is the monarch of this line's feature set, its cutting-edge drivers and well-designed crossovers are enclosed in an ultra scratch-resistant high gloss finish that will endure years of play. That means these speakers will make themselves at home in any environment from living room to home theater. And after three decades of perfecting the Boston Sound, you can be sure these speakers will sound every bit as good as they look.

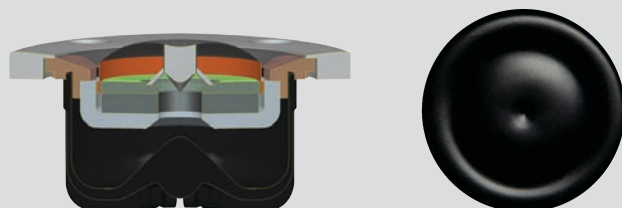

Attention to detail

Meticulously designed and solidly crafted, the most discriminating enthusiasts will revel in the small details. Each Reflection Series speaker comes cleverly appointed with magnetic grilles and stylish contours for an uncluttered modern appeal—but don't be fooled, the 1,000 watt powered subwoofer is both beauty and beast, delivering wave after wave of heart-pounding bass under its elegant exterior.

Smart tweeter technology

While looks do impress, one of Reflection Series' unique features is actually "under the hood." Our new EWB (Extended Wide Bandwidth) tweeter borrows the same performance attributes found in our flagship VS line—stabilized linear motion, lower distortion, improved dispersion, power handling, and clarity. This was accomplished by special central diaphragm termination (creating a dimple) and rear chamber venting.

Shown above, the EWB tweeter's unique design features a diaphragm that is terminated at its center.

Multi-composite woofer cones

All Reflection models incorporate our new Fiber Ceramic Copolymer Material (FCCM) Woofer cones made from a composite of fiber and ceramic materials and impregnated in a proprietary copolymer. By combining these multi-composite cones with Boston's Deep Channel® Design, these woofers produce a smooth response over the entire operating range. That means you get all the thunder of high-output bass and all the subtleties and detail of the midrange—with minimal distortion.

Advanced cabinet design and driver configuration

While each speaker baffle features a smooth surface and invisible hardware, the real secret behind Reflection's Super Linear Plane (SLP) Baffles is their unique ability to nearly eliminate acoustic diffraction. Super-shallow grilles using an invisible magnetic attachment create an almost entirely seamless alignment with the baffle plane to significantly reduce sonic barriers. The resulting sound is equally pristine with the grilles on or off. Coupled with Reflection's tightly spaced driver placement, each speaker delivers near-point-source sonic coherence, wide dispersion, and astonishing imaging.

REFLECTION SERIES

by Boston Acoustics

RS 334

Quadruple 4" Floorstanding Loudspeaker

Video-shielded for safe placement next to a TV • freq. response 43Hz-26kHz (± 3 dB) • handles up to 250 watts • sensitivity 89 dB • 1" EWB tweeter • four 4" FCCM woofers • scratch-resistant high gloss black finish • five-way gold-plated binding posts

RS 244C

Quadruple 4" Center Channel

Perfectly acoustically matched to the RS 344 • Video-shielded for safe placement next to a TV • freq. response 50Hz-26kHz (± 3 dB) • handles up to 200 watts • sensitivity 89 dB • 1" EWB tweeter • four 4" FCCM woofers • scratch-resistant high gloss black finish • five-way gold-plated binding posts

Shown with included base

RS 223

Dual 3½" LCR Loudspeaker

Video-shielded for safe placement next to a TV • freq. response 78Hz-26kHz (± 3 dB) • handles up to 150 watts • sensitivity 88 dB • 1" EWB tweeter • dual 3½" FCCM woofers • scratch-resistant high gloss black finish • five-way gold-plated binding posts

RS 260 and 230

RS 260 6½" Bookshelf Loudspeaker

RS 230 3½" Compact Satellite Loudspeaker

Video-shielded for safe placement next to a TV • scratch-resistant high gloss black finish • five-way gold-plated binding posts • 1" EWB tweeter • freq. response 50Hz-26kHz (78Hz-26kHz) ± 3 dB • handles up to 200 (150) watts • sensitivity 89 (87) dB • 6½ (3½)" FCCM woofer

RPS 1000

10" 1000-Watt Peak Powered Subwoofer

Freq. response 23-150Hz (± 3 dB) • variable 40-180Hz crossover • line-level and speaker-level inputs • front-firing 10" FCCM woofer, dual 8" radiators • scratch-resistant high gloss black finish • five-way gold-plated binding posts

REFLECTION SERIES
